

Dear Officer,

I am writing in support of Dr. [Applicant's Name] and their petition under the EB-1A immigrant visa category. I currently serve as Chief Scientist at Tencent AI Lab, where we lead global research in computer vision, natural language understanding, and generative modeling.

Dr. [Name] is widely recognized for their deep contributions to the field of reinforcement learning and deep exploration techniques. Their proposed algorithm for sample-efficient policy optimization has been cited over 4,000 times and is now standard in several open-source RL libraries. Their work is consistently ranked among the most influential in the field.

Dr. [Name] has received invitations to keynote sessions, served as senior program committee member at NeurIPS and ICML, and continues to influence the direction of AI research internationally. It is rare to see such sustained innovation over time.

I believe that Dr. [Name] more than meets the criteria for EB-1A status. Their influence is global, their originality is indisputable, and their leadership in deep learning is evident. I strongly support their petition.

Sincerely,  
[Recommender Name], PhD  
Chief Scientist  
Tencent AI Lab
