

To Whom It May Concern,

I am writing to provide my wholehearted support for the EB-1A petition of Dr. [Applicant's Full Name], an internationally recognized researcher in the field of deep learning and artificial intelligence. I am a tenured Professor in the Department of Computer Science at the University of Toronto, one of the leading institutions globally for machine learning research.

Dr. [Name]'s groundbreaking research in few-shot learning and neural architecture search has redefined how we think about model efficiency and performance in constrained-data environments. Their work has been extensively cited and has influenced both academic theory and commercial practice. Notably, their algorithms have been integrated into several open-source platforms used by tens of thousands of developers worldwide.

Their research output is impressive both in quality and quantity. Dr. [Name] has published consistently in top-tier conferences including NeurIPS, ICML, and AAAI, and has received multiple best paper nominations. They have also served as an invited reviewer and session chair, further underscoring their recognition as a leader in the field.

It is rare to encounter a researcher whose work is both technically novel and broadly applicable. Based on their exceptional record, I firmly believe Dr. [Name] meets the legal criteria of extraordinary ability and deserves approval under the EB-1A category.

Sincerely,  
Prof. [Recommender Name]  
Department of Computer Science  
University of Toronto
