

To Whom It May Concern,

I am writing in support of Dr. [Applicant's Name] and their petition for the EB-1A visa. I serve as a senior research scientist at Lawrence Berkeley National Laboratory, where I lead several federally funded initiatives involving AI in environmental modeling and clean energy forecasting.

Dr. [Name]'s contributions to domain adaptation and uncertainty quantification in deep learning models have proved invaluable to our modeling efforts. Their methods are being used in several Department of Energy-funded initiatives and have enabled better generalization performance across sparse and noisy datasets.

Their work is cited widely and forms the methodological backbone for real-world decision-making systems. This kind of high-impact research is characteristic of individuals at the forefront of scientific discovery. I have also observed their leadership in the academic community as an invited speaker, grant reviewer, and editorial board member.

Dr. [Name] clearly meets the EB-1A standard of extraordinary ability, and I fully support their petition.

Sincerely,

[Recommender Name, PhD]

Senior Scientist

Lawrence Berkeley National Laboratory
