

**To Whom It May Concern,**

It is with great enthusiasm that I write in support of Dr. [Applicant's Name] and their petition under the EB-1A category. I am a Principal Research Scientist at the Allen Institute for AI (AI2), an organization dedicated to advancing AI for the common good.

I have been familiar with Dr. [Name]'s work since their early publications on deep generative models. In particular, their contributions to stable training of GANs and latent diffusion models have become widely cited benchmarks in generative modeling. Their 2021 CVPR paper has received more than 2,500 citations and has been directly referenced in applications for medical imaging, art generation, and synthetic data augmentation.

Dr. [Name] is regarded as a thought leader whose work has pushed the boundaries of what deep learning can achieve. They are frequently invited to speak at international conferences and have served on the advisory boards of several AI labs. Their influence is evident not only in the research literature but in the tangible products and services their work enables.

Given their exceptional record and global recognition, I fully support Dr. [Name]'s petition for permanent residency under the EB-1A category.

Sincerely,  
[Recommender Name], PhD  
Principal Research Scientist  
Allen Institute for AI
