To Whom It May Concern,

I am writing this letter to offer my strongest support for Dr. [Applicant's Name] in connection with their petition for permanent residency under the EB-1A extraordinary ability category. I serve as a Program Director at the U.S. National Science Foundation (NSF), where I oversee funding programs related to artificial intelligence and machine learning.

Dr. [Name] has consistently demonstrated the kind of original, high-impact research that NSF looks to support. Their work on robustness in deep learning systems, especially under adversarial conditions, has helped shape our understanding of AI safety and reliability. This area is of increasing importance to national security, healthcare, and finance.

Their publications are widely read and cited, and their research has been featured in several grant proposals and white papers that received federal funding. Dr. [Name] also serves on NSF review panels and advisory boards, which is a testament to their standing in the academic community.

Based on their sustained contributions, national recognition, and the broad applicability of their work, I believe Dr. [Name] clearly qualifies as an individual of extraordinary ability in their field.

Sincerely,
[Recommender Name], PhD
Program Director, AI & Data Science
National Science Foundation
